## RESEARCH ASSISTANT

### Translational Research & Precision Medicine

This is an exciting opportunity for an ambitious research assistant to join the group of Dr Anastasia Constantinidou at the Cyprus Cancer Research Institute (CCRI).

The CCRI is a newly founded not-for-profit organisation based in Nicosia, Cyprus that aspires to become a world-class interdisciplinary research institute operating within a network of leading clinical and academic partners, namely the University of Cyprus (UCY), the Karaïskakio Foundation (KF) and the Bank of Cyprus Oncology Centre (BOCOC). The CCRI promotes excellence in the field of cancer research and in the development and utilisation of innovative diagnostic and therapeutic approaches with the aim of improving the survival and quality of life of patients with cancer. Our mission is to promote high calibre cancer research in Cyprus and to breed the next generation of leading cancer researchers.

#### Reports To:

The post holder will report to Dr. Anastasia Constantinidou (Group Leader)

#### Job Overview

The successful applicant will pursue research projects in the field of Precision Medicine in breast cancer and sarcoma under Dr Constantinidou's supervision.

#### Key Responsibilities:

- Participate in the laboratory's day-to-day activities, projects, meetings and procedures.
- Perform experiments as required by the Group Leader.
- Keep appropriate experimental records and documentation.
- Participate in the generation of scientific reports.
- Hold regular meetings with the Postdoctoral Scientists of the team and with the Group Leader to present & analyse results.
- Procure and maintain stocks of experimental reagents/materials, and keep a lab inventory.
- Operate and maintain equipment and instruments.
- Work closely with other CCRI scientists to conduct collaborative research, share ideas and find solutions to scientific problems.

#### Qualifications:

- Bachelor's degree in biology, Cancer Research or a related field.
- A master's degree in a related field will be considered an advantage

#### Specialist knowledge and skills:

##### *Essential*

- Research laboratory experience in a relevant field

#### Personal attributes:

- Enthusiasm, honesty, integrity, adaptability, dedication and hard-working ethos.
- Ability to think critically, work independently and communicate ideas.

- Ability to work in a team and value others.

Fluency in English is essential. Fluency in Greek will be an advantage.
